18. Can I use my Beyond Card cross-border / overseas?

Yes, you may use your Beyond Card cross-border when you travel. You may enable this function in your Beyond Card dashboard by going in Card Settings and turning on International Payments. Note however that many e-commerce websites are cross-border, and this function has to be enabled in the Boost for those transactions to occur. Your foreign currency transactions will be converted to Malaysian Ringgit (MYR) before being deducted from your Boost Wallet or Boost PayFlex balance.

19. Where can I see the conversion rate for my overseas transactions?

After your payment, you can check for the conversion rates of your transaction in your Boost Wallet transaction history.

20. What are the charges for cross-border / overseas transactions?

Refer to Fees & Charges FAQ.

21. Does my Beyond Card support pre-authorization?

The Beyond Card supports pre-authorization limited to Automatic Fuel Dispensers / self-service pumps at Malaysia petrol stations except Petron. Other transactions that require pre-authorization (e.g. Hotel, certain e-wallets, certain tolls) won't be supported for the time being.

22. Why am I deducted RM240 when I fill up fuel via self-service pump/ Automatic Fuel Dispenser?

When you use your Beyond Card to fill up fuel via self-service pump, RM240 pre-authorization will be deducted from your Boost Wallet temporarily. The additional amount charged will be reversed based on the final amount of the fuel transaction. This is done to ensure that there is sufficient balance in your Boost Wallet prior to dispensing fuel.

Please ensure that you have sufficient balance of at least RM240 in your Boost Wallet before performing a self-service pump.

If your Boost Wallet balance is less than RM240 or you wish to avoid a pre-authorization at self-service pumps, you are advised to go to the cashier where the exact purchase amount will be charged.

Note: Pre-authorization is only applicable for Boost Wallet as the Source of Fund. Pre-authorization is not supported for Boost PayFlex for the time being. If your Source of Fund is set to Boost PayFlex, your Boost Wallet will be deducted to complete your transaction. Certain petrol stations may set a higher pre-authorization amount beyond RM200. In such cases, we will hold an additional 20% of the said amount (e.g. If Petrol Station A charges RM250 pre-authorization, we will deduct RM300 from your Boost wallet temporarily. The balance will be refunded based on the final fuel amount).

23. Why can't I use my Beyond Card at some merchants?

Boost stands by in offering you with the best payment experience. However, if you're unable to make payments with your Beyond Card at selected merchants, it may be because the merchant category is not supported by us. All merchants are identified with a Merchant Category Code (MCC) and is setup at the discredit of the merchant and acquirer. Please check the nature of your intended transaction against the exclusion list below before making payment.

Here are the list of merchant types and categories that are **not supported** for Beyond Card - regardless of your Source of Fund at point of transaction (Boost Wallet/ Boost PayFlex):
